Dear Tom,

I received communications suggesting that Sigma Chi hosted an event on 3.2.24 without proper registration and approval. Based on this information, Sigma Chi may have violated the following policies:

FSILG Social Events Policy

Event Registration Policy

FSILG social events shall be registered through the online system, approved by the FSILG Office, and reviewed by the relevant governing council. The following social events must be registered: Mixers, Formals, Parties, Recruitment/CPW parties, Alumni events, New Member Presentations/Probates, Community Engagement Events and special FSILG events. Special events require advance approval from the Associate Dean prior to the event being registered. See special events details below. The FSILG Office has the authority to cancel a social event at any time at its discretion. In addition, the IFC Risk Manager has the ability to cancel an IFC social event at their discretion. Only FSILG members of said FSILG can register and host events on behalf of their organization

After reviewing the complaint and your response, I have decided to resolve this case administratively. Based on the information provided, I find Sigma Chi responsible for all policy violations. I understand that an attempt was made to register Sigma Chi's 3.2.24 event, but the lack of final registration acceptance/approval by Sigma Chi ultimately means the event was not properly registered and thus constitutes a violation of this policy.

This finding of responsibility will be recorded as an organizational warning from MIT that Sigma Chi's behavior in this situation violated Institute expectations. Please note that this finding does not impose any loss of privileges on Sigma Chi, however, if you are involved in any type of misconduct in the future, this letter will be considered in determining sanctioning.

Sincerely,

James Shaw
